MIDDLE EAST

Meatology foodtruck

For those who prefer to grab their meat fix hot off the grill and make the most of the pleasant all fresco dining weather, head to Meatology's foodtruck located in The Sustainable City itself. Picture big burgers, sandwiches and portions of smoky brisket, accompanied by creamy milkshakes and sinful desserts. Menu highlights include Grilled chicken burgers, Classic beef burgers, Cheesy cheeseburgers and juicy Bronze-steak sandwiches.

Apart from these favourites, the Vlatzicle (waffle on a stick), Lotbriok smoked rib burger (inspired by the Vikings), Burger of the Month and Boerewors (a type of sausage that originated in South Africa) loaded fries are also loved amongst families and students. The best part, if you prefer a "movie and chill" evening at home, Meatology currently serves nearby communities through Instashop, NowNow, Talabat, Deliveroo, Zomato and Careem. They also offer free delivery for those living within The Sustainable City.
